

## Quality Policy

Archile Projects is committed to providing exceptional products and service as a client-side project manager; acting as superintendent and liaising between developers and contractors for commercial, industrial, retail and residential projects in Australia.

Our quality objectives are satisfied stakeholders and continual improvement of the quality management system. These objectives are established, maintained and achieved through our objectives framework and risk profile management.

Through our communication and training programs, all stakeholders, including any relevant interested parties have gained a sound understanding of this policy and our quality management system.

This policy is established, implemented and maintained by the leadership team who ensures it is appropriate to the purpose and context of Archile in supporting our strategic directions and risk profile. It will be reviewed in March 2022.
